Protect yourself from costly and complex repairs with Equipment Breakdown Insurance for Agriculture and Farm Operations.

Affordable, Comprehensive Coverage

There was a time when farmers could repair most of their farm equipment themselves. Unfortunately, that's become increasingly more difficult today. Repairing modern complex equipment – like electronics, product handling and agricultural support equipment – requires special and expensive skills. But with Equipment Breakdown Insurance, you don't have to worry about paying for those repairs. It protects you from costly repairs for a price nearly any farm owner can afford.

Coverage for a broad range of equipment.

Equipment Breakdown Insurance covers nearly all the critical equipment and systems your facility depends on to function efficiently:

- Boilers
- Circuit breaker panels
- Computers
- Conveyors
- Electrical/emergency generators
- Fired water heaters
- GPS equipment
- Grain/hay elevators
- Irrigation systems
- Permanently installed dryers
- Pumps
- Silo unloaders
- Well/water pumps

Please refer to your policy for specific coverage, terms and conditions.

Your home is covered, too.

In addition to covering the aforementioned list, Equipment Breakdown Insurance covers all of your important home systems and property due to loss by mechanical or electrical breakdown. That includes appliances, heating and cooling systems, water heaters, well pumps, home security systems, electrical systems, personal computers, home electronics and more.

Coverage that's simple and straightforward.

Equipment Breakdown Insurance is straightforward and easy to understand. There are no hidden exclusions and no confusing fine print. Submitting claims is also simple, so you can get your equipment repaired or replaced quickly.

Protection that pays for itself.

Equipment Breakdown Insurance is designed to be affordable. The money it can save you with just one repair is far greater than the cost of the coverage.
