Buying a crop insurance policy is only one risk management option.

Producers should always carefully consider how a policy will work in conjunction with their other risk management strategies to ensure the best possible outcome each crop year.

Your Farm Bureau® crop insurance agent can assist you in developing a good management plan for your farming operation.

To locate a Farm Bureau® agent in your area visit us online at www.afbisinc.com

The information provided in this brochure varies by crop and county. Before you make any decisions concerning crop insurance, contact a Farm Bureau® agent.

MPCI products are reinsured through the Federal Crop Insurance Corporation (FCIC). These policies are available to all producers regardless of race, color, national origin, sex, age, or disability.

Livestock Gross Margin - Dairy (LGM)

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or a part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination write to: USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410 or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.
The Livestock Gross Margin for Dairy Cattle Insurance Policy uses futures prices for corn, soybean meal, and milk to determine the expected gross margin and the actual gross margin. The price the producer receives at the local market is **not** used in these calculations.

The producer may select deductible levels between $0 and $2.00.

A premium subsidy is available only if the producer selects Target Marketings in at least 2 months of the insurance period.

The insurance period contains 11 months of coverage. However, no milk can be insured in the first month following the sales closing date. Coverage will begin in the second month of the insurance period.

**What is LGM Dairy coverage?**
LGM-Dairy Cattle provides protection for unexpected decline in the gross margin between milk prices and feed costs.

**Who’s eligible for coverage?**
Any producer who owns dairy cattle may be eligible for coverage in the eligible states.

**What milk is eligible for coverage?**
Only milk sold for commercial or private sale primarily intended for final human consumption from dairy cattle fed in the eligible states.

**Frequently Asked Questions:**

**What does LGM Dairy NOT cover?**
• Dairy Cattle death
• Unexpected decline in milk production
• Unexpected increases in feed use

**What information is needed to determine coverage?**
• The number of hundredweight of milk to be marketed and insured in each month of the insurance period. This is referred to as the Target Marketings.
• Number of tons of corn or corn equivalent and soybean or soybean meal equivalent.
• Deductible elected for the insurance period. Only one deductible is permitted and will be applicable for all Target Marketings.
